FlyWheel
ALWAYS STOCKED

POWERED BY 240

Introducing FlyWheel™

FlyWheel™ is a technology enabled program developed by and exclusive to 240L Retailers, Brands and Cultivators. Our mission to create FlyWheel was clear from the beginning: to ensure our retail partners have the right quantity of their best-selling items at the time when they need them. Its features include:

- **Live Inventory Monitoring**
  - Detailed analysis of current stock levels.
  - Par level recommendations based on historical sales data.
- **Enhance Stock Level Visability**
  - Access a user-friendly dashboard displaying top-selling items with critical and low stock levels.
  - Reduces unproductive inventory items that aren't moving, creating opportunities for cash flow & profitability.
- **Open to Buy Capabilities**
  - AI & machine learning for accurate sales forecasting.
  - Up to 365-day sales predictions with 98% accuracy.
- **Responsible Purchasing & Inventory Control**
  - Predictive budgeting aligned with anticipated sales.
  - Purchase Order (PO) suggestions based on "A" Grade items to maximize profitability.
- **Advanced Reporting & Insights with Tableau**
  - Detailed insights into sales performance, trends, and competitive landscape.
  - Correlation analysis of top revenue items vs. stock levels and recommendations.

BENEFITS TO RETAILERS

- Streamline operations by providing detailed inventory and sales insights, saving your team valuable time.
- Enhance cash flow and mitigate the burden of 280e regulations through informed insights.
- Equip yourself with the necessary tools and insights to communicate effectively with vendors, ensuring timely restocking of products as per your needs.
