flourish

Flourish Software is a leading provider of vertically integrated seed-to-sale supply chain software built specifically for the cannabis & hemp industries. We're a diverse team of seasoned supply chain engineers, skilled software developers, and experienced cannabis operators. Our software is built to streamline and optimize the entire seed-to-sale in cultivation, manufacturing, distribution, and Omnichannel retail operations. Our industry-leading API and extensive and robust partner integrations cover the whole supply chain.

CULTIVATION

Enhances agricultural management by providing tools for monitoring plant growth, nutrient scheduling, and environmental controls. We support detailed tracking from seed-to-sale, ensuring compliance and optimizing yields through data-driven insights.

MANUFACTURING

Streamlines production processes, enabling efficient management of recipes, batch tracking, and compliance reporting. It supports real-time inventory updates, cost analysis, and integrates seamlessly with sales and distribution for a cohesive workflow.

DISTRIBUTION

Optimizes both inbound and outbound logistics, facilitating seamless order fulfillment and inventory management. It offers real-time tracking, automated replenishment, and detailed analytics to enhance efficiency and accuracy across the supply chain.

OMNICHANNEL POS

Web-based Omnichannel POS with intuitive UI, powerful built-in features, and robust partner integrations over eCommerce, loyalty, payments, and more. Drive results and increase satisfaction with streamlined workflows across all customer channels: in-store, online, and mobile.
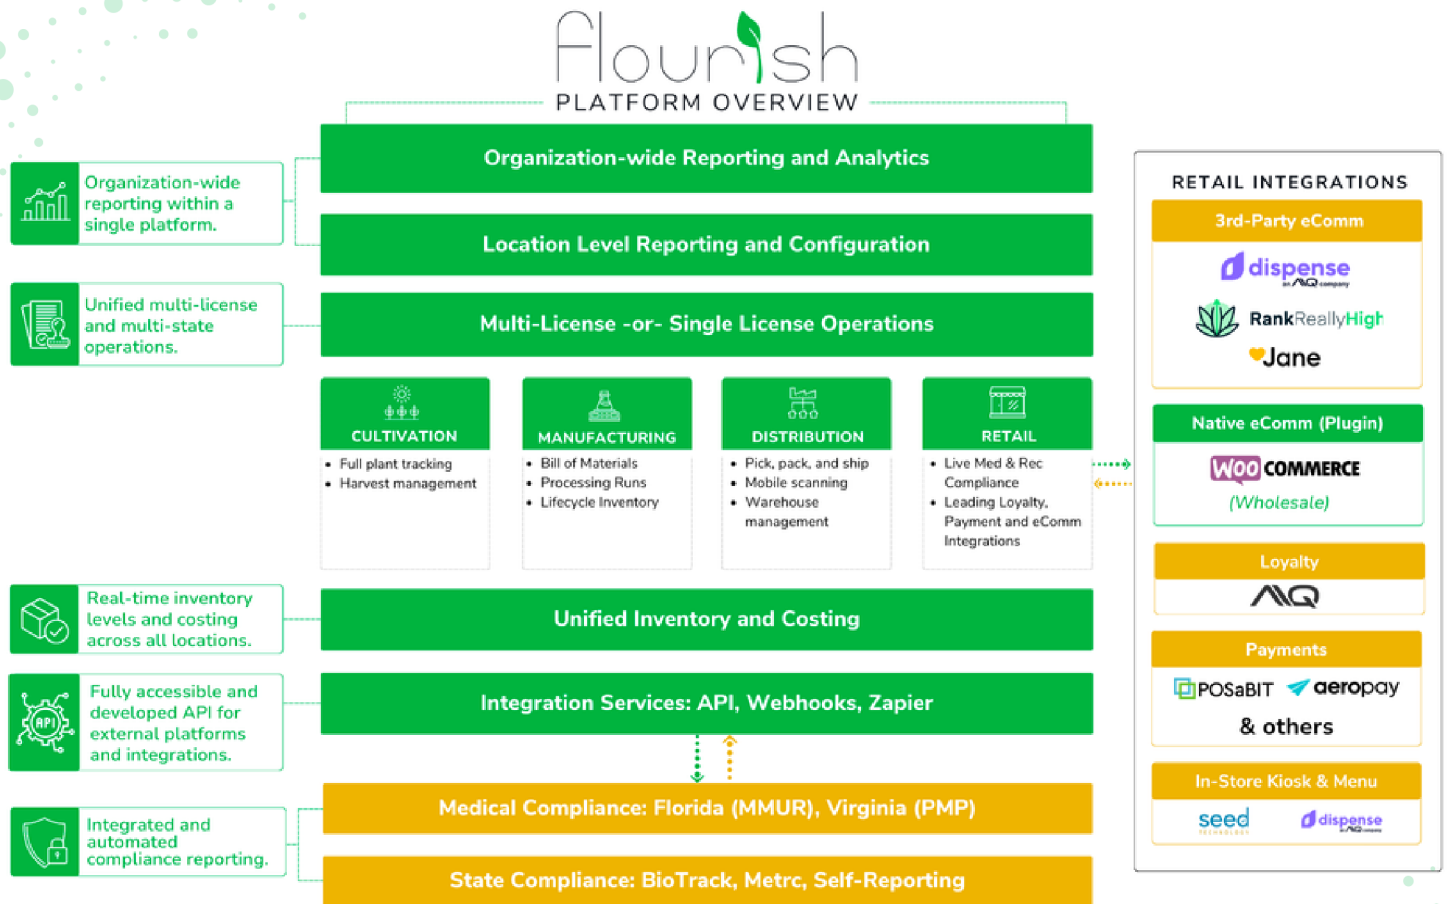

Brands Grow on Flourish

Our intuitive software seamlessly integrates with state track-and-trace systems as well as the rest of your technology stack, enabling our customers to grow, sell, scale, and flourish.

AWARD-WINNING TECHNOLOGY
2022: Named "Best for ERP Scaling and API Integrations" by Benzinga Magazine

SUPPLY CHAIN SOLUTIONS
Custom-built for cannabis and hemp supply chain workflows

STREAMLINE OPERATING PROCEDURES
Unify Inventory, automate business processes & reduce data entry.

FROM SEED TO SCALE
